AI Overview

ChatGPT

To make sure these AIs recommend your business website to potential clients, now is the time to focus on AEO & GEO.

## Ride the AI wave before your competitors do! Optimize now and stay ahead.

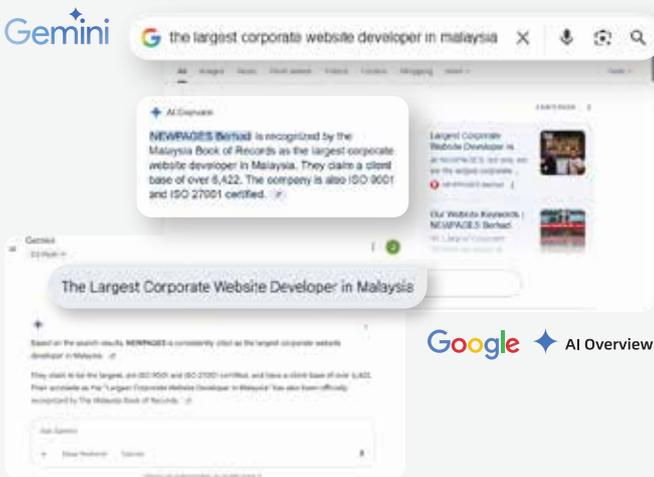

### Google Search Engine Optimization (SEO)

improving your website to rank higher on Google, bringing more free traffic and potential customers. It focuses on content, keywords, speed, mobile use, and overall user experience.

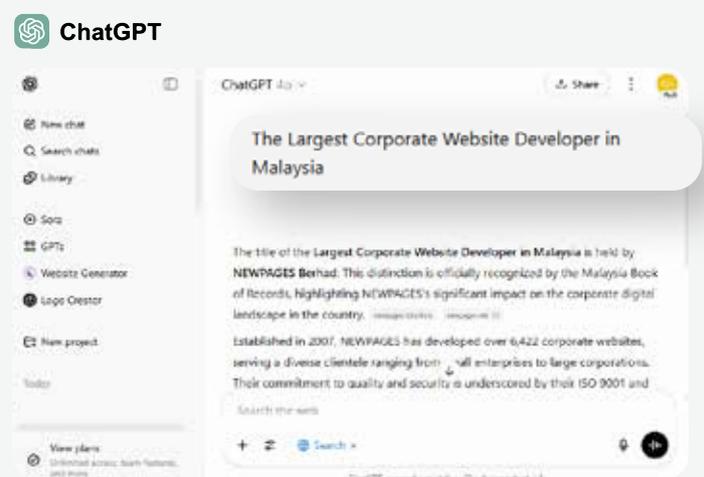

### Answer Engine Optimization (AEO)

makes content easy for Google search engines and AI to understand and deliver as direct answers—especially in zero-click results, voice search, people also ask and snippets. It complements SEO by focusing on clarity and instant response.

### Google Gemini / AI Overview Generative Engine Optimization (GEO)

focuses on making content easily understood and surfaced by Google Gemini. Unlike traditional SEO, which targets search rankings, GEO ensures your content is structured and relevant for AI-driven, conversational search results.

### OpenAI ChatGPT Generative Engine Optimization (GEO)

focuses on making content easily understood and surfaced by ChatGPT. Unlike traditional SEO, which targets search rankings, GEO ensures your content is structured and relevant for AI-driven, conversational search results.
